Bird Netting

Bird Netting creates a physical barrier to prevent pest birds from entering specific areas. When installed properly, netting is 100% effective, making it ideal for zero-tolerance zones. It can be used to block pest bird access in many applications.

PE-Plus Premium Grade BirdNet

This 3/4" polyethylene netting is a permanent solution, ideal for commercial projects. The material is light-weight, pliable, maintenance-free, and durable – lasts up to 10 years!
3/4" Black Polyethylene Knotted Net

25'x25'.......625 sq. ft....**NET-PE-25-25**
25'x50'....1,250 sq. ft....**NET-PE-25-50**
50'x50'....2,500 sq. ft....**NET-PE-50-50**
50'x100'..5,000 sq. ft....**NET-PE-50-100**

2" Black Polyethylene Knotted Net

25'x25'.......625 sq. ft....**NET-PE-25-25-2**
25'x50'....1,250 sq. ft....**NET-PE-25-50-2**
50'x50'....2,500 sq. ft....**NET-PE-50-50-2**
50'x100'..5,000 sq. ft....**NET-PE-50-100-2**

3/4" Stone Polyethylene Knotted Net

25'x25'.......625 sq. ft....**NET-PE-25-25-STONE**
25'x50'....1,250 sq. ft....**NET-PE-25-50-STONE**
50'x50'....2,500 sq. ft....**NET-PE-50-50-STONE**
50'x100'..5,000 sq. ft....**NET-PE-50-100-STONE**

1-1/8" Black Polyethylene Knotted Net

25'x25'.......625 sq. ft....**NET-PE-25-25-1-1/8**
25'x50'....1,250 sq. ft....**NET-PE-25-50-1-1/8**
50'x50'....2,500 sq. ft....**NET-PE-50-50-1-1/8**
50'x100'..5,000 sq. ft....**NET-PE-50-100-1-1/8**

Structural Heavy-Duty BirdNet

This 1/2" polypropylene netting is perfect for small businesses, homeowners, farmers and gardeners. It is tough, plastic netting that is light-weight, pliable, and resistant to elemental damage – lasts up to 5 years!

Bird-X can provide netting lengths up to 5,000 feet!

1/2" Black Polyproylene Net

100'x14'...1,400 sq. ft......**NET-STR-100**
200'x14'...2,800 sq. ft......**NET-STR-200**
Standard BirdNet

This 3/4" standard mesh netting is a great economical solution for homeowners and gardeners. It is light-weight, pliable and weatherproof.

Bird-X can provide netting lengths up to 5,000 feet!

3/4" Black Polyproylene Net

100'x14'...1,400 sq. ft......**NET-STD-100-14**
200'x14'...2,800 sq. ft......**NET-STD-200-14**

Each job is different and demands some on-site ingenuity. It can be very difficult to install properly if each step isn't carefully thought out. Double-check your measurements before cutting the net and be sure you have all materials necessary to complete the job before beginning.
Call your account manager with any questions.

Corner/Primary Attachments:

Corner/Primary attachments are under the most pressure and must be the strongest component in the system; be sure all attachments are firmly anchored. Be sure to install attachments every 45-50 feet for large jobs.

Wood: use galvanized/stainless
Concrete: use expanding net bolts
Steel: use eye bolts and nut

Intermediate Attachments:

These hold the cable tight against the structure to prevent bowing (giving birds room to enter/exit the area of coverage). Intermediate attachments should be installed every 20-25 feet. Smaller birds (such as sparrows and swallows) require intermediate attachments every 2 feet. These can be used for wood or concrete frames.

Stringing Wire/Cable & Ferrules:

The perimeter cable frames the entire area to be sectioned off by the netting. Ferrules secure the cables where they attach to the corner attachments. Slide the ferrules onto the cable before you form your connecting loop and secure it to the cable with the ratchet tool. Be sure there are at least two ferrules per loop to ensure strength and durability of the perimeter cable.

Turnbuckles:

Turnbuckles also must be well anchored as they are subject to a great deal of tension between the cable and the corner attachments – be sure your components are well secured. When installing, make sure the turnbuckles are all the way open. Pull the cable as tight as possible through the turnbuckle. Before tightening, be sure all slack in the cable is removed, taking up as much tension as possible and fasten with a screwdriver, etc. Be sure not to pull out any fasteners or eyehooks when tightening.

Mounting Cable
Stainless Steel
500' Spool – 3/32", 49 Strand Cable
Cable, 7x7, 3/32" (2mm) diameter with 920 lb. tensile.
MTG-CABLE-SS

Eyebolt Screw
For wood or thick sheet metal surfaces.
Stainless Steel (10-pack)
Corner/end attachment. 17/32" I.D., 1" lag thread.
MTG-SCREW-MD-SS

Eyebolt w/Nut
Corner/end attachment for an I-beam or other thick metal.
Stainless Steel (10-pack)
MTG-BOLT-MD-SS

Net Concrete Spikes
This hammer-in attachment is the strongest attachment for stone, concrete or solid brick. It does not require a plastic anchor sleeve; the bent shaft holds it securely in place. Zinc coated.
Stainless Steel Net Spikes, Small (100-pack)
MTG-SPIKES-SS

Eyebolt Anchor
Corner/end attachment. M6 high load bearing expansion bolt anchor. For most masonry, stone, or concrete. This M6 netbolt needs a 14mm drill bit.
Stainless Steel (10-pack)
MTG-NETBOLT-MD-SS

Multi-Purpose Cable Bracket

1.25" bracket is used as an end or intermediate bracket and installed as either a permanent fixture or as a quick-release cable holder.

Stainless Steel (100-pack)

MTG-BRACKET-SS

Heavy Duty Steel Clamp. 3/32"

This clamp defines the term "heavy duty". Your best bet for larger net installation, this clamp can hold up to 630 pounds of tensioned weight. Bolt to an I-beam or other steel structure and run your cable inside the jaws. Opens up to 2".

Stainless Steel Clamp (4-pack)

MTG-CLAMP-SS

Girder Clip

This strong, hammer-on clip allows you to attach cable to hard-to-drill steel beams. Hammer the clip into the edge of an I-beam with the cable running through the jaws (not through the hole), and your cable is secure.

1/8"–1/4" (100-pack)
MTG-GIRD-1

5/16"–1/2" (100-pack)
MTG-GIRD-2

Turnbuckles

Hook-and-eye turnbuckles for tensioning Net Cable.

Stainless Steel Turnbuckles (10-pack)
Medium, 1/4" x 3-1/2"
Call for other size options
MTG-TURN-MD-SS

Ferrules, 2.5MM

Double Sleeve Zinc/Copper Ferrules. For connecting short cable runs (3/32). Ratchet Crimper required. Two (2) ferrules per cable connection.

Copper (100-pack)

MTG-FERR-C

Net Rings

Net rings secure seams and fasten the netting to the cable, zippers, etc. Ring Tool required.

Stainless Steel (2,500-pack)

MTG-RINGS-SS

Net Zipper

UV resistant black zipper. Fasten to netting with net rings and ring tool.

3' Black, 5MM
MTG-ZIPPER3

6' Black, 5MM
MTG-ZIPPER6

Net Ring Tool

Hand operated, auto-feed ring tool. Installs net rings around net, cable, zippers, etc.

MTG-RING-TOOL

Net Ratchet Crimp Tool

Hand operated, ratcheting crimper for ferrules.

MTG-RATCHET

BirdNet Plastic Clips

Perimeter fastening. Close over rolled edges of netting for a secure hold. For all types of bird netting.

*Poly Clips (250-pack)*

MTG-CASE

Bird-X Stainless Steel Bird Spikes are used on structures worldwide to keep pest birds from roosting and nesting on building surfaces. The spikes are not harmful – just extremely irritating, intimidating, and uninviting.

Stainless Steel Bird Spikes are the industry standard on public and private RFPs. They won't corrode or decay and the flexible base allows for installation on curved surfaces.

Various sizes available. Each section covers 2 linear ft., and a 'spread' (or width) of 5", 1.5" or 7", depending on the type of spike.

CAD files and documented specifications available upon request.
Narrow Bird Spikes 1.5"

Top width: 1.5"

Bird Shock Track & Hardware

Bird Shock Track

Condition birds to stay away with this low-profile electrified track that conforms to any architectural surface.

....

Flexible and Adaptable:
Bird Shock Track is pliable and can be used in virtually any application where birds are roosting, including flat and contoured surfaces.

Almost Invisible – Low Profile Solution:
At only one-quarter of an inch high, and available in a wide variety of colors to match the structure, Bird Shock Track is hard to notice close up, and virtually invisible from a distance. It cannot be seen looking up from below.

Long-Lasting:
Made from UV-stabilized material, this product will be in service far longer than its five-year warranty.

Humane:
The intermittent shock is memorable, but does not hurt the birds; it simply conditions them to stay away, long-term.

Shock Track

Available in these colors: Brick, Tan/Beige, Black, Stop Sign Red, and Grey.

Rubber, 50'

BIRD-SHOCK-WARNING

Wire Stripping Tool
BIRD-SHOCK-STRIP

Small 120vAC Plug-in Charger (max 500')
Up to 500 ft. of track
Weatherproof plug-in charger can be mounted outside.

Input voltage: 120Vac
Output voltage (max): 9kV +/- 10%
Output Pulse Width at 500 0hms: 100uS
Output at 500 0hms: 2.4kV, 0.16J
BIRD-SHOCK-CP30

12vDC Solar Charger (max 300')
Up to 300 ft. of track
Solar-powered charger with weather resistant case.

Input voltage: 4 Vdc
Output voltage (max): 8kV +/- 20%
Output Pulse Width at 500 0hms: 50uS
Output at 100 0hms: 3.5A
BIRD-SHOCK-CS00

12vDC Solar Charger (max 500')
Up to 500 ft. of track
Good for smaller projects.

Input voltage: 12Vdc
Output voltage (max): 8.6kV +/- 10%
Output Pulse Width at 500 0hms: 25uS
Output at 100 0hms: 4.0kV, 0.14J
BIRD-SHOCK-CS30

12vDC Solar Charger (max 1,000')
Up to 1,000 ft. of track
For larger projects.

Input voltage: 12Vdc
Output voltage (max): 8.6kV +/- 10%
Output Pulse Width at 500 0hms: 25uS
Output at 100 0hms: 5.4kV, 0.133J
BIRD-SHOCK-CS20

Large 120vAC Plug-in Charger (max 2,500')
Up to 2,500 ft. of track
Powerful enough for larger projects; weatherproof.

Input voltage: 120Vac
Output voltage (max): 8.8kV +/- 10%
Output Pulse Width at 500 0hms: 75uS
Output at 100 0hms: 5.6kV, 1.3J
BIRD-SHOCK-CP20

Digital Electric Track Tester
Accurately measure track voltage.
(Volts x 1,000) Maximum 9.9 KV
BIRD-SHOCK-TESTER

2D Battery Charger
Up to 200 ft. of track
For small jobs where a large charger is not necessary.

Input voltage: 3 VDC, 12 mA
Output voltage: 7.5 kV (+/-)
20% open circuit intermittent DC output
BIRD-SHOCK-BATTERY

Light Flashing Indicator
BIRD-SHOCK-INDICATOR

Bird Wire & Post Products

Bird Wire is a discreet, humane, and highly-effective bird control solution for ledges, beams, signs and other long surfaces. Stainless steel wires are attached to stainless steel posts at different heights, creating an uneven landing surface and making it difficult – if not impossible – for birds to perch on the treated surface.

Bird Wire Cable
Stainless steel wire, 1X7 nylon-coated. Diameter is .7mm
