This holographic bird tape is designed to utilize sight and sound to scare birds away from the area. This visual scare product goes by many names including Irri-Tape, foil tape, flash tape, bird tape, repeller ribbon, mirror tape, reflective tape, mylar tape, holographic tape and more.

- Iridescent material shimmers in the sunlight, disorienting pest birds
- Foil tape makes metallic noises as it flaps in the wind, threatening birds
- Simple, cost-effective, and easy to install

*Not suitable for saltwater applications

Customer Testimonial

We had a *SERIOUS* bird problem. The poop was EVERYWHERE – patio, pool, outdoor furniture, etc. I ran several criss-crossing fishing lines from trees in our back yard to the house eaves and then ties 3-foot streamers of Irri-Tape every 10-12 feet along those fishing lines. This created a canopy of about 30 or so streamers 15-20 feet above the ground covering our entire patio and pool area. The *before* was daily cleaning with many many droppings...and now NOT ONE BIRD dropping in over a year! OUTSTANDING product.
–Timothy S. from New York City, NY

Details

- Holographic, iridescent foil bird tape
- Visual scare – birds are scared by the material’s changing reflections in light
- Sound scare – birds are rattled by the metallic noise
- Physical deterrent – birds are blocked by the tape and its brackets
- Can be used alone or in combination with a sound device or a taste aversion
- Includes metal mounting brackets
- NOTE: prolonged exposure to saltwater spray may shorten product life

Applications

Repels pest birds including pigeons, sparrows, starlings, crows, blackbirds, grackles, seagulls, swallows, woodpeckers, ducks, geese, predators, etc.

Recommended for use in any open outdoor area, or semi-enclosed areas with access to light and/or wind:

- Yards & patios
- Gardens & orchards
- Rooftops & balconies
- Parks & ponds
- Boat docks & private beaches
- Etc.

Benefits

- Protect crops including orchards, fruit and vegetable gardens
- Cut recurring cleanup and repair costs
- Protect buildings and equipment from corrosive bird droppings
- Reduce health and liability risks associated with pest bird infestation
- Prevent spread of diseases, such as West Nile, Salmonella and E. Coli
- Avoid government and safety inspection failures
- Increase/maintain property aesthetics
- Decrease nuisance for residents, workers, customers, etc.
