

Prowler Owl

See website for current pricing.

NEW and Improved Prowler Owl! Scare birds with a dynamic, realistic, owl decoy; resembles the most-feared aerial predator, the Great Horned Owl, which catches and eats almost anything that moves.

- Lifelike design increases effectiveness
- Accurate plumage and hunting flight pose
- Intimidating, glassy eyes
- Flexible wings move and flap in the wind realistically

Don't be fooled by imitations that are immobile – without movement, an owl scare is useless! Install Prowler Owl decoy in any open outdoor area where pest birds or small critters are a problem.

Customer Testimonial

I purchased the Prowler Owl to get rid of Pigeons. They were nesting on the front of our office building, tarp and roof edges. At first, my co-workers joked saying the pigeons would just stand on the owl's head and leave droppings. Since then, the pigeon activity on our roof and especially our tarps has minimized to where there are no droppings at all. The South Florida rainy season has finished cleaning the tarp and it remains clean thanks to your Prowler Owl.

–G Torres from Fort Lauderdale, FL

Details

- Predator owl replica; life-size owl
- Owl scare repels pest birds and other small animals
- Always-moving “hunting” posture keeps birds away
- 4-foot wingspan and accurate markings
- Safe, humane, non-toxic, silent

Applications

Target pests include: pigeons, sparrows, starlings, crows, blackbirds, grackles, seagulls, swallows, etc.; also small animals such as skunks, rodents, rabbits, squirrels and more.

Effective where visible for up to 6,000 sq. ft.

Recommended for use in open outdoor areas, such as:

- Parks, fields, trees
- Yards & gardens
- Rooftops
- Golf courses
- Marinas

Benefits

- Cut recurring cleanup and repair costs
- Protect buildings and equipment from corrosive bird droppings
- Reduce health and liability risks associated with pest bird infestation
- Prevent the spread of diseases, such as West Nile, Salmonella and E. Coli
- Eliminate fire hazards caused by birds building nests in vents and chimneys
- Avoid government and safety inspection failures
- Save outdoor grounds from bird damage
- Increase property aesthetics
- Decrease bird nuisance

Specs

- Dimensions: 44” wingspan, 23” total head-to-tail, 6” head diameter
- Materials: Head is hard plastic resin, body/wing is extra-durable, waterproof non-woven fabric supported by flexible cables and riveted plastic struts
- Mounting: Place neck opening on a ½” diameter pole
