Subject: RE: Re: Message of interest from Leone Scobie at Bird-x-peller

My Dear Ron,

Good luck. I am so keen to see the business grow to the next level, and I know as well as you do I can not do it alone.

I have done my bit on proving it is possible, to repel birds, possums, & wallabies here using your equipment.

Many people are too kind to kill the possums, so they would be happy to have a electronic deterrent, rather than the drastic measure of killing them.

Your Transonic Pro and Yard Gard are ideal for Wallabies and Possums. I sell them all the time to deter them, and they really work.

Looking forward to seeing you soon,

Leone x Tony & good wishes from Graeme
