I would like to take this opportunity to thank you for the wonderful device that I bought last year - WOODPECKER-PRO.
The "fake" stucco on my new home was destroyed by woodpeckers from early February all the way through late June. Not only my home was affected, BUT EVERY house in the neighborhood. As soon as I installed the device... they were gone.

I would like to thank you. My neighbors are also very grateful, since we had to repair the facing of our houses 2-3 times per year.
