Subject: Goose Chase in Action

First off, let me thank you for putting out such a great product! We tried everything short of electric fences to get rid of the Canadian Geese in our yard, living on a point they had been a huge problem. After the first application of Goose Chase we had no geese in our yard for a week! After the second application they haven't been back since and that was two weeks ago!

This product is excellent and I would recommend it to anyone who has a problem with Canadian Geese in their yards.

Thanks again.
