Re: QB - 4 Bird Repeller

Message:

I have installed 4 QB-4 Bird Repellers with 4 Terror eyes in our packinghouse. They have successfully eliminated bird activity inside the packinghouse. When one of the QB-4s malfunctioned and caused a circuit breaker to disconnect the birds returned. I am totally satisfied with the Bird-X equipment. Also I have had great success at my barn for my farming operation. After installing a QB-4 with a terror eye the bird activity has been eliminated.

Aaron has agreed to replace the malfunctioning QB-4 which I am returning.

Thank You

Lynn P. G
