BIRD-X  
300 North Elizabeth Street  
Chicago, IL 60607  
Attention: Aaron

Gentlemen:

I had an enormous problem with grackles and blackbirds and went to the Internet to seek help. There, I found your company and called to talk to a representative about the BIRD-X machine.

I ordered the machine and within a week, all of the pesty birds were gone from our yard and from our entire neighborhood. I placed the machine in our back yard for three days and then moved it to our front yard for three days. I have kept up this rotation since receiving the machine. (There are ten trees in our yard, so you can imagine the mess the birds made on our patio, driveway, cars, etc.)

I set the machine on "hawk" call only, but will switch to distress and hawk in the spring.

I am very pleased with the success of the machine in ridding us of the birds, and I am now the HERO of our neighborhood. I hope that several of my neighbors will see fit to order a machine so that the birds will really take flight and stay away from our area.

Thank you for saving my sanity, my yard, and the necessity of selling my home to get away from the birds.

Sincerely,

Rogers
