Dear Robert,

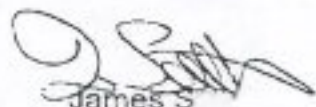

re: Bird-X ultrasonic bird repellents

We installed the three Bird-X QB-4 ultrasonic repellents and orange Terror-eyes supplied by you some four weeks ago at The Edge cinema. As you know we have had an infestation of pigeons in the lower car park, on the rear balcony and around the front of the building for some years. All attempts to remove the pigeons have failed up until now.

I'm writing to let you know that since installing the repellents the pigeons have thankfully left the scene, this is a great result, no more constant cleaning of the terrible mess that they constantly left behind or removing the birds which used to fly into the building.

We are so pleased with the outcome please feel free to use us as a reference, undoubtedly the products do a great job.

Yours faithfully

James S  
Property and Maintenance Manager  
The Edge Cinema
