**Subject:** Birdshield Rules!

My wife and I have fought an infestation of Starlings in the attic of our 1872 Victorian in Bucks County Pennsylvania for seven years!

All that wasted energy, effort and money!

I hesitated to buy Birdshield because I thought it cost too much money. At my wits end I made the leap of faith and purchased your product.

The first day I sprayed Birdshield I could see the birds visiting the attic, and congregating in the nearest maple tree.

I sprayed Birdshield a second time. I have not seen a Starling on my property since! They fly right by!

Every year I stubbornly spent more time and money on products that did not work. Never again will birds roost in my house.

Thank You from the converted fans of Birdshield!

Chris & Diane S
