Dear Sir or Madam:

I ordered several products from your company – Terror-Eyes, Irri-Tape, and most recently, the Bird X-Peller. My house was under siege every morning at sunrise from a constant woodpecker attack. My plan was to install the Terror-Eyes and Irri-Tape on one Sunday, then wire and install the X-Peller the next week. After years of daily pecking every spring for the past 3 years, the attacks stopped as soon as I installed the orange ball and reflective tape— permanently. These products really work.

I am returning the X-Peller, unopened and unused. Your other products worked so well, it would be overkill. I have enclosed a copy of my Packing List, and would ask that you please credit my card. Thank you for your courtesy and attention, and should you require any further information please don't hesitate to call at 954

Sincerely,

John P
